Polar Blend

THE WORLD'S FIRST 2-SPEED
BATTERY-OPERATED

**BLENDER
& MIXER**

Recipe & User Guide

**PATENTED
TECHNOLOGY**

Thank you for choosing Polar Blend.

Congratulations on the purchase of your portable blender/mixer by Polar Blend; the world's first 2-speed portable blender/mixer.

We are excited to be part of your ON-THE-GO healthy lifestyle and committed to providing you with products that support your health goals!

Our Polar Blend blender/mixer is completely portable and it was created so you can take it with you everywhere you go.

The Polar Blend mixer lets you blend almost anything, anywhere you go.

This manual will provide you with all the care and operating information you need, plus some recipes to get you started! Please keep this information in a safe place for reference!

FCC STATEMENT:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

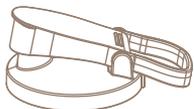

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/technician for help. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.

WHAT YOU GET

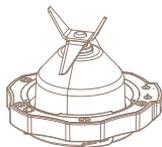

1 Lid

1 Strainer

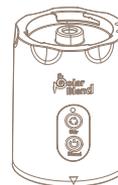

2 Orings

1 Blade

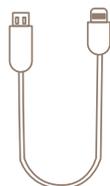

1 Jar

1 Set motor with battery

1 Battery base

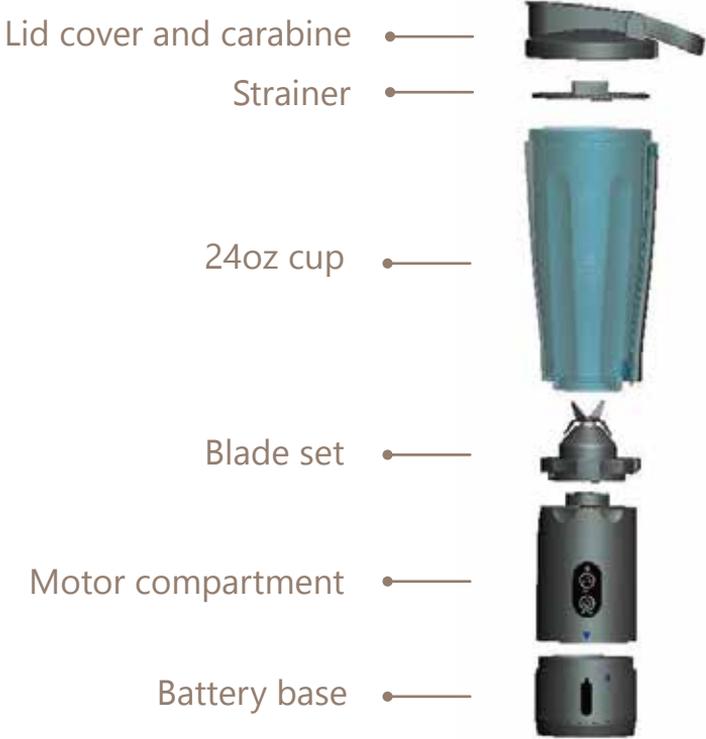

1 Type-C cable

1 User manual & recipe

- 24oz BPA-BPS-free Tritan cup.
- Lid with built-in drinking spout and carabiner holder.
- Removable strainer.
- Removable stainless-steel food-grade blade with O-ring.
- 3200mAH high-torque motor base with 2-speed settings
- Charging base with an additional 5,200mAh battery.
- Type C input.
- 2 extra O-rings.
- Manual and recipe book.

GETTING TO KNOW YOUR BLENDER

Your blender can be used in multiple ways; please see illustrations for different uses.

- 24oz cup

You can just bring the cup with you

Please note: with the cup alone, there is no blending.

- Motor base with cup

Bring the motor base and cup together to mix your drinks fresh.

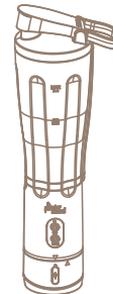

Using just the motor base allows you to press the Mix button; you can blend softer fruits and mixes while keeping your drink fresh all day.

- Bring cup/motor base/charging base

For a full-experience blend.

Using the full-experience blend, you can crush ice and harder ingredients as well as mix and blend your drinks and smoothies.

2. Important safeguards

SAVE THESE INSTRUCTIONS

HOUSEHOLD/VEHICLE/OFFICE/GYM ONLY

When using the device, basic safety precautions should always be followed, including the following:

General safety:

- To protect against risk of electrical shock, NEVER put the battery base and motor compartment into water or other liquid or rinse them. You can use a damp cloth to wipe them and a sponge to clean the cup body.
- Do not use appliance for other than intended use.
- The use of attachments or parts not recommended or sold by the manufacturer may cause fire, electric shock, or injury and void any applicable warranty.
- Do not use Polar Blend portable blender in outdoor areas where sand or water can damage the unit and void any applicable warranty.
- Close supervision is necessary when any appliance is used by or near children or incapacitated persons. This product is not a TOY.
This product is intended to be used in your home, office, gym, and vehicle. It should not be used for commercial use, to avoid damaging the product.
- This product is a household portable food processor.
- This product has a maximum juicing time of 20 seconds per one cycle. It needs to cool down for 2-3 seconds before the button can be pressed again.
- Even though you can put hot liquids in the jar, NEVER put the jar and blade in the microwave. The blade cannot be put in the microwave.
- The use of attachments, including canning and/or ordinary jars and processing assembly parts, is not recommended by OUR BLENDER and may cause a risk of injury to persons.
- Keep hands and utensils out of the container while blending to prevent the possibility of severe injury to persons and/or damage to the blender. If scraping, stirring, or folding is necessary, turn off the blender and unplug from power source and use a rubber spatula.

- **Never blend carbonated ingredients or liquids. The built-up pressure from released gases will cause the container to burst, resulting in possible injury.**
- **Avoid contact with moving parts.**
- **Blades are sharp. Handle carefully when removing the blade, emptying the mixing cup, and cleaning.**
 - To avoid injury, never place cutting blades on base without the blender container properly attached.
 - Screw on the container bottom firmly. Injury can result if moving blades become exposed.
 - Always operate the blender with cover securely fastened.
 - Always secure the container by holding it while processing. If the container should turn when the motor is switched on, switch "Off" immediately and tighten blender container in the threaded container bottom.
 - **DO NOT** use dishwasher/microwave/sterilizer and other types of cleaning machines to clean the battery base and motor compartment.
 - **DO NOT** blend hot liquids (more than 40 C /104 F) in the jar. Always allow ingredients to cool below the boiling point before blending, as blending can cause hot contents to be expelled causing possible injuries.
 - **DO NOT** leave the blender unattended while it is operating.
 - **DO NOT** remove the jar when the appliance is operating.
 - **DO NOT** operate any appliance if the appliance malfunctions or is dropped or damaged in any manner.
 - This product has rechargeable Lithium-ion batteries inside. To avoid risk of fire or electric shock or other injury, DO NOT open the housing or dispose into a fire. There are no serviceable parts inside. Repair should be done by authorized service personnel only.
 - Dispose of the appliance properly by adhering to local material recycling policies.
- Do not fill cup past the MAX line; there needs to be room at the top to blend effectively. Overfilling might result in ingredients getting stuck or overflowing.
- Make sure the cover on the drinking spout is closed, otherwise when blending ingredients will splash out.
- Do not expose the portable blender to extreme heat or direct sunlight.
- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic circuits. If your device gets wet, allow it to dry completely.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronics components can be damaged.
- Do not store the device in hot areas. High temperature can shorten the life of the electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the device in cold areas. When the device returns to its normal temperature, moisture can form inside the device and damage electronic circuit boards.
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
- Do not paint the device. Paint can clog the moving parts and prevent proper operation.

AFTER BLENDING INGREDIENTS, ALLOW THE CONTENTS TO SETTLE AND RELEASE ANY PRESSURE THAT MAY HAVE BUILT UP DURING EXTRACTION. THE SUGARS IN FRUITS AND VEGETABLES MAY FERMENT, CAUSING PRESSURE TO BUILD UP IN THE JAR. THIS MAY CAUSE INGREDIENTS TO SPILL OUT AND BURST WHEN MOVED OR OPENED. OPEN THE DRINKING SPOUT COVER TO LET SOME OF THE GASES OUT. ADD HOT LIQUIDS TO THE CUP (DO NOT HEAT ABOVE 104F DEGREES). NEVER PUT THE BLENDER OR BLENDER CUP IN THE MICROWAVE FOR WARMING, THE BLADE MAY CAUSE A FIRE DUE TO BEING MADE OF METAL.

SAVE THESE INSTRUCTIONS

HOUSEHOLD/VEHICLE/OFFICE/GYM ONLY

Electrical safety:

Polar Blend portable blender/mixer can be charged with a Type C cable via wall/power bank/computer/car (2ft USB-A-C CABLE IS INCLUDED).

When charging, DO NOT push the cable forcefully into the charger port. The internal port may be damaged.

Insert the cable carefully and gently.

Do not allow the cable to hang over the counter or table.

Do not allow the cable to touch hot surfaces.

Do not plug in or operate if the cable is damaged or if the motor is dropped or damaged.

Do not plug in if the product you are charging with (computer/power bank/wall charger/car charger) is damaged or shows signs of defect.

Do not submerge or get cable wet; allow it to dry completely if cable touches the water accidentally before plugging it in.

Do not modify the cable in any way.

The cable included with the blender can be used with any USB home or car charger, power bank, or computer ports. Enegibrands, Inc. is not responsible for any damage claims that are caused by defective or malfunctioning chargers/USB ports.

SAVE THESE INSTRUCTIONS

HOUSEHOLD/VEHICLE/OFFICE/GYM ONLY

Cleaning and maintenance instructions:

The only parts that need cleaning are the cup, blade and lid; however, some spills might occur on the motor and charging base. If this happens, please follow these directions:

- Always make sure the blade is stopped completely before cleaning. Unplug the Polar Blend from the power source.
- The jar and lid can be cleaned in the dishwasher or with warm water (less than 40°C/104°F) or with a soft brush and damp cloth. Do not use wire balls, abrasive cleaners, or corrosive liquids.
- Do not put the blender base into water or any other liquid. Use a soft sponge or cloth with mild detergent to clean the outside of the blender base.
- Do not use a dishwasher/microwave/sterilizer or other types of cleaning machines to clean the battery base and motor compartment.
- Please ensure that the product is clean and dry before storage.
- After cleaning, install the blade and its base on the jar with lid and then place them onto the motor compartment and battery base.
- Please recharge every 3 months to preserve battery life if your Polar Blender goes unused.
- Quick clean: fill the jar half-way with water, place the cup with the lid onto the motor compartment, and press the button to run the machine for 10 seconds. After 10 seconds, shut off the machine and empty the liquid from the jar
- sometimes the contact connections can be dirty; simply use a damp sponge or towel and warm soapy water to clean it. Make sure that it is dry before reusing the blender.

NEVER SUBMERGE THE MOTOR OR CHARGING BASE IN WATER. DO NOT PUT THE BLADE SEPARATELY IN THE DISHWASHER. KEEP IT WITH THE CUP WHEN CLEANING IT. REMOVE THE COVER LID AND STRAINER TO CLEAN THE CUP. YOU CAN PUT THE LID COVER AND STRAINER SEPARATELY INTO THE DISHWASHER. IF THE O-RING GETS LOOSE OR IS DAMAGED, WE PROVIDE 2 EXTRA REPLACEMENT O-RINGS THAT ARE PACKED WITH THE MANUAL. WE RECOMMEND CHANGING THE BLADE EVERY 6-8MONTHS. VISIT OUR WEBSITE WWW.POLARBLEND.COM OR CONTACT SUPPORT@ENEGIBRANDS.COM FOR REPLACEMENT PARTS.

3. Save these instructions

THIS BLENDER IS DESIGNED FOR
HOUSEHOLD/VEHICLE/OFFICE/GYM ONLY

Charging your Polar Blend portable blender:

Before use, clean the Polar Blend cup and ensure the product is fully charged before initial use. This product comes with a dual-protection safety switch and will work only after the cup body is fixed on the base and LED light is blue and flashes 3 times.

Using the Type C cable provided, carefully insert the smaller tip (Type C part) into the charging base (first carefully remove the silicon cover.) Place the other end into a wall charger or other charging device such as power bank, computer, USB ports, or car charger.

Please do not insert the cable forcefully, you can damage your port.

To fully charge your battery the fastest way possible, please use a 2amp wall charger. You can use a lower amperage, however, charging could take up to 4 hours. The LED light indicator will turn red when charging is initiated. Once charging is complete the LED light will turn blue. Note: the motor batteries (middle part) can be charged on the charging base only. Your blender can blend approximately 40 to 50 cups before requiring another charge, depending on the speed used.

Depending on the power bank's capacity, it will take a little longer to charge than using a wall charger. (It is advisable to use a power bank that is 10,000mAh or higher).

Using the higher speed and harder ingredients may use more battery power.

The cable included with the blender can be used with any USB home or car charger, power bank, or computer ports. Eneji Brands, Inc., is not responsible for any damage claims caused by defective or malfunctioning chargers/USB ports.

20-second cycle feature:

Your Polar Blend has a built-in automatic 20-second cycle timer. This feature helps to prevent the motor from overheating. Most recipes require just one 20-second cycle to crush or blend; if you need to blend more, wait 2 seconds and simply press the desired speed button again. If you would like to turn off the cycle before 20 seconds, simply push the button again.

Smart lid and cup alignment technology:

NOTE: This blender is equipped with a special safety technology that does not allow the motor to operate without the lid in the correct position. The blade will not function if the lid is not securely fastened.

Additionally, the Polar Blend will not operate if the cup is not properly aligned to the motor base. All parts must be in alignment or the blender to work. This safety feature is in place to protect from physical harm or product damage.

• Prepping your food before first use:

Please follow these important tips to ensure the best performance from your Polar Blend product.

Before using the Polar Blend Portable blender for the first time, rinse all of the pieces, except for the motor and charging base, in warm soapy water. Rinse and towel dry.

Always pour in the liquid base first before making your beverages or other recipes. For example, you can use water, milk, almond milk, olive oil, stock or broth, etc.

- Cut fruit or vegetables into small pieces for easier and faster blending.
- Fill all ingredients, including liquid, up to the MAX line only. If food gets trapped under the blade, turn off the blender and let it cool for 20 seconds, then remove the blockage. Continue to blend. Most common foods that may create blockages are carrots, bananas, or avocados.
- This blender is not intended for making mashed potatoes, mixing dough, or grinding meat.

Know your 2 speed buttons:

- The Polar Blend blender is equipped with the world's first 2-speed button control on a portable Appliance. The top button can be used to stir and mix softer ingredients or powders.
- The lower button can be used to crush ice and grind coffee beans or nuts.

Lower “Blend” Button with Ice-Crushing Capability

- Step 1. Wash fruit and cut into small pieces (please remove solid, thick skinned, or hard-shelled peels).
- Step 2. Keep the container upright on a flat surface. Fill with water a little over the “Min” mark. After filling the cup with liquid, place harder ingredients (ex., ice) and start crushing. Avoid blending over the “Max” line.
- Step 3. Once your cup is filled with your favorite ingredients, secure the lid on the cup and place the blender on the motor compartment with the charging base. (Note: the charging base contains the extra batteries and torque to crush ice and harder ingredients).
- Step 4. Press the blender switch (lower “Blend” switch) and motor will operate.
- Step 5. This product can be used continuously for 20 seconds. If the juice needs more crushing, the blender must be fully cooled for about 20 seconds and then you can crush again.

Noted: If the blade is blocked by fruit or ice, please tip the blender horizontally and shake, pressing the lower “Blend” button switch, and then place it upright after motor rotation.

Upper “Stir” button

After juice is ready, you can add seasonings by using this function.

1. Open the lid and add seasonings to the juice.
2. Close the lid and press the “Stir” button (upper switch). The juice will be mixed on a slow speed.
3. Open the drinking spout on the top. Now you can pour the juice or drink straight from the cup.

Strainer

There is a removable filter between the lid cover and container cup to separate any unwanted pulp. If you prefer more texture in your finished beverage, blend without the strainer.

Note: While drinking your juice from the spout, if the strainer is blocked by residue just shake the cup and then drink again.

Technical specifications

Product Name	Portable Blender/Mixer	Item No.	PB-POLAR1-BK PB-POLAR1-WT
Charging Voltage	DC5V - - 1 ~ 2A	Charging Time	5 hours
Li-ion Battery Capacity	2,600mAh * 2 + 1,600mAh *2 Total: 8,400mAh	Capacity	600ml
Electrical Rating	DC7.2V - - 15A	Max. Power Rating	108W
Rated Energy Value	31.08Wh	USB charging wire length	3 Ft.
Motor Speed	10,000 RPM	Product Dimensions	D96*357mm
N.W.	861g	Single Operation Time	20 Seconds

Note: This product can be charged by most universal smartphone USB chargers or power banks.

Toubleshooting tips

Description	Reason	Light Indicator	Elimination Method
Doesn't turn on when switched on	Magnetic induction switch has not been started	Red light and blue light flash alternatively 2 times	Tighten the transparent cup body and align the bottom of cup to the motor base. The indicator light will flash blue 3 times and power is on.
Blending stops automatically at 20 seconds	Cycle time using a juice cup under normal circumstances	Blue light flashes 5 times	Normal circumstances
Blending stops when the light is red	Undervoltage	Stable red light for 5 seconds	Device requires normal charging session.
Will not turn on after adding fruit	Blade and fruit contact area is too large, blades cannot turn/overloading	Red light flashes 5 times	Add more liquid and cut fruits into smaller pieces. Tilt cup to free the fruit, then start the blender again. Otherwise, turn off the blender and remove some fruit. Then restart it.

LED status indicator

Describe	Light Indicator
A. Lights on the motor compartment	
Circuit is on-state	Blue light turns on and flashes 3 times
One cycle finished of normal operation (20 seconds)	Blue light turns on and flashes 5 times
Normal running	Blue light turns on and stays on 20 seconds, then shuts off
Overloading running or blade block	Red light turns on and flashes 5 times
Lower power	Red light turns on and stays on 5 seconds, then shuts off
Battery of motor compartment is charging	Orange light turns on and then stays on
Charging of motor compartment finished	Orange light turns off
Circuit is disconnected	Red and blue lights alternate flashing 2 times
B. Light in the battery compartment	
Battery of battery compartment is charging	Red light on and not off
Fully charged battery compartment	Blue light on and not off

4. Quick guide

1. The Polar Blend comes fully assembled, however the blade and base must be manually connected to the cup as seen above.

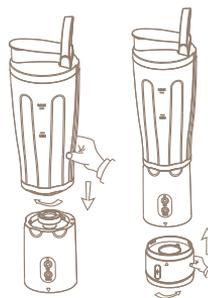

2. Add fruit or ice then add liquid: it is suggested to add 50% greens and fruits. Add ice if desired. Add liquid to the MAX line. You can also add powders or nuts. Do not fill past the "Max" line.

NOTE: For optimum performance, the Polar Blend blender requires a liquid base such as oil, water, milk, chicken, or broth.

3. Place the strainer and cover on the cup. You do not need to use the strainer for blending; use it if you do not want pulp. Make sure the lid is aligned to the back of the cup. This safety feature allows the motor to start.

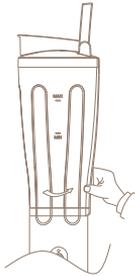

4. Place the cup on the motor compartment, then place the cup and motor on the charger base.

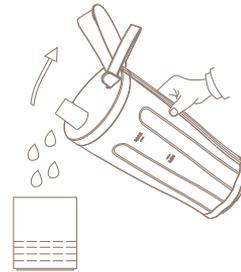

5. Press the lower “blend” button to start blending the ingredients.

After the ingredients are blended, you can press the top “stir” button to keep your drink from settling; or you can use it to mix added ingredients such as powders and other finely ground seasonings that do not need crushing or blending.

While blending, do not leave the blender unattended.

6. After blending, simply open the spout and drink directly from the cup, or pour it into your favorite mug.

7. After using your Polar Blend blender, simply place the cup and lid into the dishwasher for cleaning or rinse with water and dry.

PLEASE NOTE: NEVER PUT THE MOTOR OR CHARGING BASE IN WATER OR A DISHWASHER; THIS CAN DAMAGE THE UNIT OR CAUSE HAZARD

5. Quick tips

Your Polar Blend blender will Even come with some power, fully charge your Polar Blend blender (the red light will turn blue) for optimum performance.

The blender comes with fast Type C Technology; use the Type C cable provided for charging. Gently insert the cable into the port.

Hand rinse and pat dry the blender cup prior to first use.

NEVER place your hands inside the cup or touch the blades.

The Polar Blend blender is equipped with the world's first 2-speed button control on a portable appliance. The top button can be used to stir and mix softer ingredients or powders; while the lower button "blend" can be used to crush ice and harder ingredients.

Always use a liquid base before making your smoothie or drinks. You can use water, milk, almond milk, olive oil, stock, or broth, etc.

Step 1. Wash the fruit and cut it into small pieces (remove solid, thick-skinned, or hard-shelled and peels first).

Step 2. Keep the container upright on a flat surface. Fill with water a little over the "Min" mark. After filling the cup with liquid, you can put harder ingredients such as ice and start crushing; avoid going over the "Max" mark.

Step 3. After filling your cup with your favorite ingredients, put the lid on the cup, place the cup on the motor compartment with charging base. (Note: the charging base contains the extra batteries and torque to crush ice and harder ingredients.)

Add ice after you have placed your ingredients in the cup. Put in a few pieces to start, press the "blend" button, and after the first blend you can add additional ice and press again.

Start your blender in a tilted position. Press the "blend" button then bring it back to the vertical position. This will allow the food that is under the blade to be blended.

You can blend larger pieces of ice by adding some water for easier blending.

We do not recommend blending with hot liquids over 104F degrees. Hot liquids can be added after the ingredients are blended.

The Polar Blend blender cup and lid cover are dishwasher safe. DO NOT place the motor or charging base in water.

The Polar Blend blender is equipped with a special safety technology that does not allow the motor to operate without the lid in the correct position; the blade will not turn on. When the parts are aligned, the blue light will flash three times, and then you may proceed mixing a beverage.

Your blender has a built-in automatic 20-second cycle timer. This feature helps to prevent the motor from burning out. Most beverages need only one 20-second cycle to crush or blend. To blend more, wait 2 seconds and simply press the desired speed button again.

If the blender battery is low or the blade is blocked, the red light will light and flash every 5 seconds.

If your blades are blocked, tilt or turn the unit upside down and start the blender again.

After each blend, wait 2 to 3 seconds before blending again.

6. Warranty instructions

DO NOT RETURN PRODUCT TO THE STORE*

Your Polar Blend product by Eneigibrands Inc. is covered by a one-year limited Warranty from date of purchase.

Should your Polar Blend product have a defect in product material or workmanship within the warranty period, Polar Blend will arrange to have your product returned to us and either deliver an identical or comparable replacement to you, free of charge, or supply replacement parts.

Eneigibrands Inc warrants that its product listed below (PB-POLAR1-BK) will be free from defects in workmanship and materials under normal use for the period(s) listed below (the "Limited Warranty Period").

WHO IS COVERED? This limited warranty is non-transferable and covers only the original end purchaser. An original or copy of a sales receipt from an Eneigibrands Inc. authorized retailer or website is required for warranty service. **This limited warranty does not cover products purchased from unauthorized retailers (including, without limitation, online third-party sellers who sell on auction sites).** Online sales auction confirmations are NOT accepted for warranty verification.

What is not covered?

Products without valid or sufficient Proof of Purchase

***valid proof of purchase:** Order # from web purchases made directly through our Eneigibrands Inc., www.polarblends.com website 2: Original invoice; 3: Dated sales receipt (date, product description, and price must all be legible).

Products whose initial warranty period has expired.

Normal wear and tear of Product use.

Items that have been lost or stolen.

Damage from misuse of item (including but not limited to: lack of care, mishandling, accident, falls, abuse, extreme temperatures, water, or other abnormal use or improper operation).

Use of the Product other than for its intended purpose.

Damage caused by improper or unauthorized repair or maintenance.

Product that has been modified or altered.

Any product that is not manufactured by Eneigibrands Inc. (including, without limitation, any non-Eneigibrands Inc. product that is used in connection with the Product).

Any Product that is not purchased from an Eneigibrands Inc. authorized retailer (find authorized retailers here: <https://www.polarblends.com>).

Note: Eneigibrands Inc. is not liable for any loss of property or injury incurred from use of Eneigibrands Inc. products

WARRANTIES ARE NON-TRANSFERABLE. SECOND-HAND ITEMS, INCLUDING SALES FROM WEBSITES SUCH AS EBAY AND CRAIGSLIST, ARE NOT COVERED BY ENEGIBRANDS INC. WARRANTY.

Note:

Shipping costs must be covered by buyer in the following situations:

- Returning products for any reason other than a proven defect.
- Buyer's accidental returns.
- Returning personal items.
- Returning items claimed to have defects but found by Eneigibrands Inc. quality control to be in working condition.
- Costs associated with unauthorized returns (any returns made outside of the approved warranty process).
- Warranty claims on items taken outside the original country of purchase

How to make a warranty claim

Warranty claims must be made directly to Eneigibrands Inc. Int'l. For customer assistance, please email us: **support@eneigibrands.com** and you will be provided with the appropriate form for your warranty claim. Please do not send your Product directly to Eneigibrands Inc. Int'l without first contacting customer service via email, as this will only delay the process.

Once Eneigibrands Inc. receives your request or product (if deemed necessary), Eneigibrands Inc. will evaluate your claim (typically within 7-10 business days) to determine whether the returned Product is covered by the applicable limited warranty. If Eneigibrands Inc. determines that there is a warranted defect in the Product, Eneigibrands Inc. will, at its sole option, remedy the defect as set forth below. Eneigibrands Inc. is not liable for Products that are damaged or lost in transit to Eneigibrands Inc. We recommend that you ship your return products to Eneigibrands Inc. via a trackable shipment method. You are responsible for customs fees, including, but not limited to, taxes, duties, and brokerage. All Products returned to Eneigibrands Inc. will be subject to review for authenticity. Products determined to be counterfeit will be confiscated and turned over to Eneigibrands Inc.'s legal department for action. Counterfeit items will not be returned, and consumers should seek restitution from their original place of purchase.

***Warranties on all replacements follow the same warranty timeframe of the original defective item, or ninety (90) days after being replaced, whichever is longer. You must submit the invoice provided with replacement when claiming warranty for an item that has been replaced.**

Sole and Exclusive Remedy

Your sole and exclusive remedy for a breach of this limited warranty, and Eneigibrands Inc.'s sole and entire liability is, at Eneigibrands Inc.'s option, to repair or replace the defective Product. If the Product was purchased directly from our on-line store, you may request a refund for the purchase price of the defective Product if your claim is submitted within 30 days of the purchase date. Repair or replacement (including parts, labor, and shipping costs) shall be made at Eneigibrands Inc.'s expense. Eneigibrands Inc. reserves the right to send you a replacement Product that is the same or of a similar style or a substitute equivalent that may not be of like kind (depending on availability). Replacement Products will be furnished only on an exchange basis. Replacement Products are warranted (as specified above) for the remainder of the original applicable Product Limited Warranty Period.

Warranty Disclaimers

Except as expressly set forth above in the applicable limited warranty, Eneigibrands Inc. makes no other express or implied warranties to the extent permitted by law and specifically disclaims and excludes all implied warranties, including, without limitation, the implied warranties of non-infringement of third-party rights, merchantability, and fitness for a particular purpose. If such disclaimer of any implied warranty is not permitted by law, the duration of any such implied warranties is limited to the durations set forth in this limited warranty. Some jurisdictions do not allow the exclusion of implied warranties or limitations on how long an implied warranty may last; therefore such limitations or exclusions may not apply to you. In addition to the rights described herein, you may also have other rights that vary from state to state or country to country with respect to the exclusion or application of implied warranties, incidental and consequential damage and repair and replacement. Consequently, the limitations or exclusions specifically contained in this warranty may not be applicable to you. The applicable limited warranty gives you specific legal rights, and you may also have other rights that vary from jurisdiction to jurisdiction. The warranty provided herein is limited to the value of the Product. Manufacturing specifications are subject to change without notice.

The following statement applies only to Australian customers that are "consumers" within the meaning of the Australian consumer law: "Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Limitation of Liability

In no event shall Eneigibrands Inc. or its authorized suppliers be liable to you or any third party for any indirect, incidental, consequential, special, or exemplary damage arising out of the use of the Product, including and without limitation, property damage, loss of value of the Product or any third-party products that are used in or with the Product, or loss of use of the Product or any third-party products that are used in or with the Product, even if Eneigibrands Inc. has been advised of the possibility of such damage

Soups

Tuscany Tomato Basil Bisque (vegan, low-carb, Keto, vegetarian, kid-friendly)

Hearty but not heavy, this soup is perfect for those work-lunch days!

INGREDIENTS:

- 2 large red tomatoes*
- ¼ c. chopped yellow onion*
- 2 c. vegetable stock*
- 1/2 tsp. stevia (or other natural sweetener)*
- 4 large basil leaves, chopped*
- 1 clove of garlic, minced*
- Salt and Pepper To Taste*
- Shredded parmesan cheese (for garnish)*

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until pureed. Heat in a separate bowl in the microwave and serve with shredded parmesan cheese.

Skinny Potato Soup (low-carb, Keto, vegetarian, kid friendly)

Who says potatoes aren't healthy fare? Packed with fiber and potassium, this recipe is perfect post workout!

INGREDIENTS:

- 2 boiled, chopped russet potatoes*
- 2 c. milk (or milk alternative of your choice)*
- 1 Tbs butter*
- Shredded Cheddar Cheese*
- Sliced Green Onions (for garnish)*
- Salt and Pepper To Taste*
- Bacon Bits (optional)*

DIRECTIONS:

Place cooked, chopped potatoes, milk, and butter in the Polar Blender and pulse until smooth. Season with salt and pepper. Heat in a separate bowl in the microwave. Serve hot with shredded cheddar cheese and sliced green onions. Add optional bacon bits!

Creamy Cheddar and Broccoli Soup*(low-carb, Keto, kid friendly)*

This hearty soup is perfect for a quick lunch or dinner and can still be sipped straight from your blender!

INGREDIENTS:

*1 cup of broccoli florets, steamed in the microwave
1 can of cheddar cheese soup
½ c. of chicken stock
1 clove of garlic, minced
½ c. of milk (or other milk alternative)
Salt and Pepper To Taste*

DIRECTIONS:

Combine all ingredients in the Polar Blend, and pulse until fully combined. Heat in a separate bowl in the microwave until ready to serve.

Rainy Day Chicken and Rice

Even if you're not under the weather, this savory soup is perfect for those colder than cold days when you are stuck in traffic and need some comfort food!

INGREDIENTS:

*½ c. cooked, shredded chicken
2 c. chicken stock or broth
1 carrot, cooked until soft, chopped
½ c. long-grain brown rice, cooked
1 stalk celery, chopped fine
1 clove of garlic, minced
½ tsp. thyme
Salt and Pepper To Taste*

DIRECTIONS:

Combine chicken stock, carrot, celery, garlic, and thyme in the Polar Blend. Pulse until the carrot has thickened into the soup. Add the rest of the ingredients and heat in a separate bowl in the microwave until ready to serve. Season with salt and pepper.

Creamy Cucumber Soup (vegan, low-carb, Keto, vegetarian)

A perfectly cold soup for those hot summer days! Hydrating and nutritious!

INGREDIENTS:

2 medium cucumbers, peeled and chopped

2 Tbs. onion, chopped

2 c. vegetable broth

½ c. olive oil

1 Tbs. chopped parsley

Salt and Pepper To Taste

DIRECTIONS:

Combine all ingredients except the olive oil in the Polar Blend and pulse until pureed. Add the olive oil and pulse until fully emulsified. Chill before serving.

Coffee drinks **(low carb, sugar-free)**

**This is Polar Blend's Signature drink!
Sure to get you going any time of day!**

Polar Blend Signature Espresso -serve hot or cold

INGREDIENTS:

*3 shots of freshly brewed espresso (or 2 cups brewed coffee)
2 c. of crushed ice
1 c. heavy whipping cream (or milk alternative of your choice)
Stevia (sweetener optional)*

DIRECTIONS:

Fill the Polar Blend cup with the ice. Add the coffee, heavy whipping cream, and optional sweetener. Pulse until thick and foamy. Serve immediately. Blend with crushed ice for a cold beverage.

Creamy Mocha Espresso – serve hot or cold (low carb, sugar-free)

Rich and chocolate-y, this mocha has all the kick you'll need!

INGREDIENTS:

*2 c. of freshly brewed coffee
½ c. of milk (or milk alternative of your choice)
¼ c. of chocolate syrup
½ tsp. stevia (or natural sweetener of your choice)*

DIRECTIONS:

Heat milk in the microwave. Pour hot coffee into the Polar Blend and add milk. Pulse until fully blended. Add the chocolate syrup and sweetener, pulse until frothy. Serve immediately. Blend with crushed ice for a cold beverage!

Irish Coffee(low carb, sugar-free)

Nothing warms you up like a spiked Irish Coffee! Fill your blender and share with a friend!

INGREDIENTS:

2 c. strong, hot coffee

½ c. heavy whipping cream (or milk alternative of your choice)

2 shots of Irish Whisky

Dash of Cinnamon

Pinch of Orange zest

DIRECTIONS:

Heat heavy whipping cream (or milk alternative) in the microwave in a separate bowl.

Pour hot coffee into the Polar Blend and add cream, cinnamon, and orange zest. Blend until foamy. Add Irish Whiskey, stir and serve with extra orange zest sprinkled on the top.

Tiramisu Latte -served hot or cold

NOTE: Experiment with a variety of coffee syrups like French Vanilla, Salted Caramel, or Butterscotch.

An elegant, next-level coffee drink that is better than store-bought!

INGREDIENTS:

2 c. fresh brewed coffee

¾ c. milk (or milk alternative of your choice), divided into ½ and ¼ c.

Shot of Tiramisu syrup

DIRECTIONS:

Combine all ingredients and ½ c. of milk in the Polar Blend and pulse until frothy. Pour into mugs. Blend the ¼ c. of milk until foamy and gently layer on the top of the latte.

Serve immediately.

NY Minute Mocha(low carb, sugar-free)

No time to brew? Add instant espresso to hot water in your blender and a squirt of chocolate syrup! With or without milk, it's ready in a minute!

2 cups hot water

INGREDIENTS:

½ c. instant espresso (more or less depending on your taste)

Chocolate Syrup (more or less depending on your taste)

½ tsp. Stevia (or natural sweetener of your choice)

Milk of your choice

DIRECTIONS:

Pour hot water into the Polar Blend, add espresso and pulse. Blend thoroughly.

Add chocolate syrup and sweetener to taste. Serve immediately.

Cocktails

Jack Frosty Mimosas

The perfect drink for any celebration! Bright blue, sweet, and a favorite during the holidays!

INGREDIENTS

1 c. vodka
1 c. Prosecco
1/2 c. Blue Curaçao
1/2 c. lemonade
2 c. ice

DIRECTIONS:

Combine vodka, Prosecco, Blue Curaçao, lemonade, and ice in the Polar Blend and pulse until mixed well. Pour into glasses and garnish with a lemon slice. Serve immediately.

Classic Margarita

No blended drink guide would be legit without a classic margarita recipe! Feel free to substitute the fruit: bananas, blueberries, strawberries, watermelon, the sky is the limit!

INGREDIENTS:

1 c. tequila
1 c. lime juice
1/3 c. Cointreau
¼ c. sugar
2 c. crushed ice
Fruit of your choice (see above)

DIRECTIONS:

Place ice in the Polar Blend and add the rest of the ingredients, including (optional) fruit. Blend thoroughly and serve immediately with wedges of lime.

Classic Dacquiri

Any time is a great time for a tropical dacquiri! Feel free to experiment with fresh or frozen fruit like strawberries, mangos, or peaches!

INGREDIENTS:

*½ c. white rum
1 c. orange juice
1 Tbs. sugar
Fruit of your choice (optional)
2 c. of crushed ice*

DIRECTIONS:

*Combine all the ingredients in the Polar Blend and pulse until the mixture is frothy.
Serve immediately.*

Blended Bloody Mary

Get in your Vitamin C and daily veggies with this healthy elixir. Non-alcoholic is fine, too!

INGREDIENTS:

*2 c. low-salt tomato juice
1 medium red tomato
½ cucumber, chopped
1/3 c. Vodka (optional)
½ c. crushed ice
2 tsp. horseradish
Salt and Pepper To Taste
Celery sticks for garnish*

DIRECTIONS:

Combine all the ingredients (except celery sticks) in the Polar Blend and pulse until blended and thickened. Pour into chilled glasses and garnish with a celery stick.

Coconut Milk Eggnog (low carb, sugar-free)

This holiday classic can be enjoyed year-round with the reduced fat and calories.

INGREDIENTS:

2 cans of full-fat Coconut milk

4 egg yolks

½ tsp. vanilla extract

1 tsp. Pumpkin Pie Spice (or a blend of cinnamon, nutmeg, and allspice)

Coconut Whipped Cream (optional for garnish)

DIRECTIONS:

Heat coconut milk until warmed. Add to Polar Blend with remaining ingredients. Pulse until foamy, reheat if necessary. Serve warm with coconut whipped cream and a sprinkling of pumpkin pie spice on the top.

Dips/Sauces/Spreads

MEDITERRANEAN MARINADE & VINAIGRETTE(vegan, low-carb, Keto, vegetarian, kid-friendly)

Whip up this double-duty marinade/vinaigrette for salads, veggies, or marinating meat or fish.

INGREDIENTS:

1 c. balsamic vinegar

1 ½ c. extra virgin olive oil

3 Tbs. lemon juice

2 cloves of garlic, minced

1 Tbs. dried Italian seasoning (or a blend of dried basil, majoram, and oregano)

Salt and Pepper To Taste

DIRECTIONS:

Combine all ingredients in the Polar Blender except extra virgin olive oil. Pulse until fully mixed.

Add oil ½ cup at a time, pulse, and then refrigerate until chilled.

Cucumber Sour Cream Dip(low-carb, Keto, vegetarian, kid-friendly)

This refreshing dip is a low-carb dream come true for veggies, crackers or even as a spread on a wrap or sandwich.

INGREDIENTS:

1 large cucumber, chopped fine

2 c. sour cream

½ c. low-fat yogurt

Fresh parsley, tarragon, thyme, and chives, chopped fine to equal ½ cup.

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until fully mixed. Refrigerate until chilled.

Creamy Peanut Satay Sauce(vegan, low-carb, Keto, vegetarian, kid-friendly)

Perfect for dipping salad rolls or veggies or stir into noodle dishes for an Asian flair!

INGREDIENTS:

*1 ½ c. nut butter (peanut, almond, or sunflower-creamy or crunchy)
2 Tbs. soy sauce
1 Tbs. maple syrup
1 Tbs. chili paste (sambal or sriracha)
¼ c. water*

DIRECTIONS:

Combine all ingredients except water in the Polar Blender. Pulse until fully mixed. Slowly add water if the sauce needs thinning out. Chill in the refrigerator until ready to use.

The Ultimate Guac(vegan, low-carb, Keto, vegetarian, kid-friendly)

*Perfect guacamole has so many steps, but this recipe makes a creamy dip in just two steps!
Prep and pulse!*

INGREDIENTS:

*2 large avocados, pit removed, peeled and chopped
3 garlic cloves, minced
½ c. salsa
1 jalapeno pepper, seeded and chopped (more or less depending on taste)
Juice of one lime
Chopped parsley and cilantro to equal ¼ cup.
Salt and Pepper To Taste*

DIRECTIONS:

Place all ingredients in the Polar Blend and pulse until the avocados are soft and creamy and everything is mixed together. Chill in refrigerator until ready to use.

South of the Border Salsa Cruda(vegan, low-carb, Keto, vegetarian, kid-friendly)

This oh-so-basic recipe lays the foundation for whatever else you want to add to it to make your own special salsa blend! Let your Polar Blend do all the work!

INGREDIENTS:

3 large ripe tomatoes, diced

1 jalapeno pepper, seeded and diced (more or less depending on taste)

1 large onion, diced

¼ c. cilantro, chopped

Juice of one lime

Salt and Pepper To Taste

DIRECTIONS:

Combine all ingredients in the blender and pulse until everything is fully mixed.

Chill in refrigerator until ready to use.

Desserts and sweet treats

Mocha Chia Pudding (low-carb, Keto, lacto-ovo vegetarian, kid-friendly)

This creamy pudding is made super healthy with the addition of chia and flax seeds.

INGREDIENTS:

6 Tbs. chia seeds
2 Tbs. ground flax seeds
3 c. low fat milk (or milk alternative of your choice)
6 Tbs. cocoa powder
3 tsp. vanilla extract
Stevia (or other natural sweetener) To Taste

DIRECTIONS:

*Combine all ingredients in the Polar Blend and pulse until everything is fully mixed.
Chill in refrigerator at least two hours before serving.*

Frozen Yogurt Fruit Pops(sugar-free, lacto-ovo vegetarian, kid-friendly)

Take your favorite fruit, some healthy Greek yogurt and pulse up some homemade fruit pops that are ready when you are! Great as a healthy snack for kids!

INGREDIENTS

2 cups of your favorite fruit (blueberries, strawberries, peaches, bananas)
1 ½ c. apple or grape juice
1 c. Greek yogurt
Splash of vanilla

DIRECTIONS:

Combine all ingredients in the Polar Blender and puree until smooth. Pour into popsicle molds and freeze overnight.

Low-Carb KETO Chocolate Mousse*(low-carb, Keto, lacto-ovo vegetarian, kid-friendly)*

Satisfy a sweet tooth with a little hit of chocolate and espresso! One cup does it all!

INGREDIENTS:

*3 oz. of cream cheese, softened
½ c. of heavy whipping cream
1 Tbs. instant espresso powder
2 Tbs. cocoa powder
1 tsp. Stevia (or natural sweetener of your choice)
Pinch of salt*

DIRECTIONS:

Break up softened cream cheese and place in the Polar Blender. Add whipping cream, instant espresso powder, cocoa powder, sweetener and salt. Pulse until light and fluffy, about 4 minutes. Serve immediately or refrigerate for later.

Key Lime Cheesecake*(low-carb, Keto, lacto-ovo vegetarian, kid-friendly)*

*This healthy version of a popular cheesecake can be served in a prepared graham cracker crust or scooped into a bowl and garnished with graham cracker crumbs!
The perfect grab-and-go dessert!*

INGREDIENTS:

*2 ripe avocados, peeled and chopped
8 oz. of cream cheese, softened
2 Tbs. fresh lime juice
½ c. coconut oil
1 Tbs. honey (or natural sweetener of your choice)*

DIRECTIONS:

Break up softened cream cheese and place in the Polar Blender. Add remaining ingredients and pulse until thick and creamy. Chill in refrigerator at least two hours before serving.

Polar Blend Brownies For the Win(lacto-ovo vegetarian, kid-friendly)

These decadent, fudgy delights are super easy to make, bake, and take!

INGREDIENTS:

¾ c. butter, melted

1 c. semi-sweet chocolate chips

3 eggs

¼ c. cocoa powder

1 c. sugar

1 tsp. vanilla extract

1 cup all-purpose flour

DIRECTIONS:

Preheat oven to 350 degrees F and spray a 9x9 baking pan with pan release.

Combine the melted butter with the eggs, cocoa, sugar and vanilla in the Polar blender. Pulse until completely blended. Add chocolate chips and pulse until combined. Pulse flour into mixture one half cup at a time until the batter is fully mixed. Pour into the prepared pan and use a spatula to scrape the remaining batter in to the prepared pan. Bake for 30 minutes or until a toothpick inserted in the center comes out clean. Allow to cool before cutting.

Smoothies

Blueberry and Oats Smoothie (Lacto-ovo vegetarian, kid-friendly)

Blueberries are one of the top anti-oxidant producing fruits. Paired with Vitamin B packed oatmeal, you've got breakfast in a cup!

INGREDIENTS:

- ¼ c. old-fashioned rolled oats*
- 1/3 c. frozen blueberries*
- ½ c. plain low-fat yogurt*
- ½ c. crushed ice*
- ½ tsp. Stevia (or other natural sweetener)*
- ¼ tsp. ground cinnamon*

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until smooth.

Banana Chia Smoothie (lacto-ovo vegetarian, kid-friendly)

Potassium-loaded bananas partner up with protein-packed chia for a smoothie that will energize you all day long!

INGREDIENTS:

- 1 whole banana, peeled and sliced*
- 1 c. apple juice*
- ¼ c. plain low-fat yogurt*
- ½ c. crushed ice*
- 1 Tbs. chia seeds*
- 1 tsp. ground flax seeds*

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until smooth.

Coco Mocha Smoothie (lacto-ovo vegetarian, kid-friendly)

Enjoy this one by the pool or on the way to the beach!

INGREDIENTS:

*1 10 oz bag of frozen raspberries
1 ripe banana
1 c. low-fat yogurt
1/3 c. unsweetened cocoa
2 c. unsweetened coconut milk
½ c. crushed ice
1 tsp. stevia (or other natural sweetener)*

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until smooth.

Vegan Overnight Oats (vegetarian, vegan, kid-friendly)

This grab-and-go breakfast gets you fueled for that A.M. workout!

INGREDIENTS:

*1 large banana
Handful of frozen blueberries
½ c. crushed ice
¾ c. old-fashioned rolled oats
1 Tbs. maple syrup*

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until smooth.

Green Spirulina Smoothie (vegetarian, vegan, kid-friendly)

Detox and re-energize with this bright and tangy smoothie!

INGREDIENTS:

1 Tbs. spirulina powder

1 Tbs. green matcha powder

½ green apple, chopped

2 c. low fat milk (or milk alternative of your choice)

½ c. crushed ice

DIRECTIONS:

Combine all ingredients in the Polar Blend and pulse until smooth.
